

WORKSHEET 4: SUMMARY OF FINDINGS

This worksheet can be used to create narrative descriptions to post alongside sections from **Worksheet 3: Identifying Connections between Policy and Practice**. The purpose of these narratives is to describe the district's progress toward meeting their wellness goals. Not all districts will have information to share in all four sections.

SECTION 1: STRONG POLICIES AND ALIGNED PRACTICES

If applicable, write a narrative below to describe your district's areas of success in meeting its wellness goals.

Alto ISD is very successful in the following categories: Standards for USDA School Meals; Nutrition Standards for Competitive and Other Foods and Beverages; Physical Education and Physical Activity; Wellness Promotion and Marketing; Implementation, Evaluation, and Communication. The District offers the School Breakfast Program to all students daily. We have removed all student vending machines. All snacks and beverages provided by the school meet the USDA Smart Snack standards. Students receive education about agriculture and the food system through our Learn, Eat, Grow, Go program. All meals served are in compliance with the Healthy Hunger-Free Kids Act (HHFKA). The district has taken steps to protect the privacy of students who qualify for free or reduced priced meals. Students are always given the regular reimbursable meal despite unpaid balances and are not stigmatized in any way. Both, breakfast and lunch times meet standards. Free water is consistently available to students during meals and throughout the school day. All training for food and nutrition staff meets or exceeds the USDA Professional Standards. The district has a written PE curriculum for every grade that is aligned with national/state standards. All Elementary and Middle school students meet the required minutes per week for PE. All PE classes are taught by state certified/licensed teachers who are endorsed to teach PE. Daily recess is provided for all Elementary grades. Multiple strategies are used to promote healthy food and beverage choices.

SECTION 2: CREATE PRACTICE IMPLEMENTATION PLAN

If applicable, write a narrative below to describe how your district will create practice implementation plans to ensure full compliance with all elements of the LSWP.

While the overall results of the Triennial Assessment were positive, the assessment identified some improvement opportunities. Below are those improvement opportunities and the stakeholder(s) responsible for creating and overseeing the implementation plan:

- The Director of Curriculum and the Food Service Director will coordinate to make specific goals for nutrition education that are designed to promote student wellness.
- The district will regulate all food and beverages served during classroom activities such as rewarding students or birthday celebrations to ensure they meet the Smart Snack standards.
- The district will revise the Wellness Policy based on the triennial assessment to include all current policies that are already in place, if not already listed in the Wellness Policy, and any new policies that need to be added.
- The district will make the Triennial Assessment public

SECTION 3: UPDATE POLICIES

If applicable, write a narrative below to describe how the district will update its policy to include all federally required items. You may also add plans for additional policy updates if desired.

The Wellness Council will discuss updating the regulation to include the following:

- All food sold/served on campus will meet USDA nutrition standards for school meals.
- The district has implemented plans to protect student privacy so that no student is overtly identified in any way for receiving free or reduced meals by having all students, regardless of the type of payment they use for school meals or food being bought, are given a code to enter at the cash register.
- Free drinking water is available for self-service in the cafeteria during meal times.
- All school nutrition program directors, managers and staff will meet hiring and annual continuing education/training requirements in the USDA Professional Standards for Child Nutrition Professionals. These school nutrition personnel will refer to USDA's Professional Standards for School Nutrition Standards website to search for training that meets their learning needs.

- All food items served or offered to students during the school day will meet all federal, state and local standards for all nutrient and competitive food guidelines.
- Students, parents, staff and/or community members are welcome to join the committee. A letter will be posted in a central area in all school buildings inviting members of the community to join the wellness committee. All members will be included in the development, implementation, review and update of the wellness policy.

SECTION 4: OPPORTUNITIES FOR GROWTH If applicable, write a narrative below to describe how your district will update its policy and practices to include all federally required items. You may also add plans for additional wellness goals if desired.

The district will update its policy by reviewing the Triennial Assessment and notifying the Student Health Advisory Committee (SHAC) of the necessary updates needed to include all federally required items. Once the SHAC has voted and approved all of the necessary updates, they will then meet with the Board of Trustees. After that, the Chairman of the SHAC will update the wellness plan and post the updated plan to the Districts website.

WORKSHEET 3: IDENTIFY CONNECTIONS BETWEEN POLICY AND PRACTICE

This worksheet includes four sections that assess the connections between the written wellness policy and the district and school practices.

Instructions: Print out the WellSAT 3.0 Scorecard and Scorecard for the WellSAT-I. With the two scorecards side by side, go through each section and identify the following using Worksheet 3:

All items that received a written policy score of 2 and an interview practice score of 2. These are your district's Strong Policies and Aligned Practices. List items in this section on Worksheet 2, starting with those that are federally required.

All items that received a written policy score of 1 or 2 and an interview practice score of 0 or 1. These are items where you need to Create Practice Implementation Plans. List items in this section on Worksheet 2, starting with those that are federally required.

All items that received a written policy score of 0 or 1 and an interview practice score of 2. These items are where your district should Update Policies. List items in this section on Worksheet 2, starting with those that are federally required.

All items that received a written policy score of 0 or 1 and an interview practice score of 0 or 1. These items represent Opportunities for Growth. List items in this section on Worksheet 2, starting with those that are federally required.

SECTION 1: STRONG POLICIES AND ALIGNED PRACTICES

This document identifies where the district has a strong policy and is fully implementing practices that align with the policy.
