# INDEPENDENT AUDITORS' REPORT

Board of Trustees Alto Independent School District Alto, Texas

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Alto Independent School District ("the District"), as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

# Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of August 31, 2018, and the respective changes in financial position, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison, pension and other post-employment benefit information on pages 8-12 and 43 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, and other supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and other supplementary information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 12, 2018, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report on page 59-60 is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering District's internal control over financial reporting and compliance.

# ALTO INDEPENDENT SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Alto Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended August 31, 2018. Please read it in conjunction with the District's financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- The District's total combined net position was \$3,239,520 at August 31, 2018.
- During the year, the District's expenses were \$1,467,549 more than the \$8,271,691 generated in taxes and other revenues for governmental activities.
- The fund balance of the general fund is \$2,367,249 which increased \$269,802 from the prior year.

### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This annual report consists of three parts -management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's overall financial status.

  Figure A-1, Required Components of
- The remaining statements are fund financial statements that focus on individual parts of the government, reporting the District's operations in more detail than the government-wide statements.
- The governmental funds statements tell how general government services were financed in the short term as well as what remains for future spending.
- Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required* supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Detail

Summary

#### **Government-wide Statements**

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, liabilities, deferred inflows and outflows. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. The two government-wide statements report the District's net position and how they have changed. Net position - the difference between the District's assets, liabilities, deferred inflows and outflows - is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional non-financial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the governmental activities of the District. These are the basic services such as instruction, extracurricular activities, curriculum and staff development, health services, and administration. Property taxes, state aid, and federal grants finance most of these activities.

#### **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's most significant *funds* - not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

- Some funds are required by State law and by bond covenants.
- The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has two kinds of funds:

**Governmental Funds** - Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that can be spent in the future to finance the District's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental fund statement, or on the subsequent page, that explains the relationship (or differences) between them.

**Fiduciary Funds** - The District is the trustee, or *fiduciary*, for money raised by student activities. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance operations.

#### FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

**Net Position.** The District's combined net position was \$3,239,520 as of August 31. (See Table A-1).

- The cost of all *governmental* activities this year was \$6,804,142.
- However, the amount that our taxpayers paid for these activities through property taxes was \$1,823,984.
- Some of the cost was paid by those who directly benefited from the programs \$59,801 or by grants and contributions of \$576,260.

# General Fund Budgetary Highlights

The District's budget compared to actual expenditures was \$49,141 under final budget amounts. The District expects no significant changes to the budget for the 2018-19 year.

# CAPITAL ASSETS AND DEBT ADMINISTRATION Capital Assets

At the end of 2018, the District had invested \$7,314,788 in a broad range of capital assets, including land, equipment, buildings, and vehicles (See Table A-3). This amount represents a net decrease (including additions and deductions, and depreciation) of \$65,205 over last year.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- General operating fund spending per student is not expected to change significantly in the 2018-2019 school year.
- The District does not expect any significant change in the 2018 refined average daily attendance.

These indicators were taken into account when adopting the general fund budget for 2018. The District will use current resources to finance programs we currently offer.

The District has added no major new programs or initiatives to the 2018-2019 budget.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Business Office.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of Alto Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

# A. <u>Reporting Entity</u>

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental "reporting entity" as defined by the GASB in its Statement No. 14, "The Financial Reporting Entity" and there are no component units included within the reporting entity.

### B. Basis of Presentation, Basis of Accounting

#### Basis of Presentation:

Government-wide Financial Statements: The statement of net position and the statement of activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

General Fund: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

In addition, the District reports the following fund types:

Debt Service Fund: This debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

Capital Projects Fund: This fund is used to account for financial resources to be used for the acquisition, renovation, or construction of major capital facilities.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Special Revenue Fund: These funds are used to account for the proceeds of specific revenue sources (other than agency funds or capital projects) such as federal, state, or locally financed programs where unused balances are returned to the grantor at the close of specified project periods. Funds are legally restricted to expenditures for specified purposes.

Agency Funds: These funds are used to report student activity funds and other resources held in a purely custodial capacity (assets equal liabilities). Agency funds typically involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

#### Measurement Focus, Basis of Accounting:

Government-wide and Fiduciary Fund Financial Statements: These statements are reported using the economic resources measurement focus. They are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

### Fund Balance:

GASB Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance amounts that are not in spendable form (such as inventory and prepaid expense) or are required to be maintained intact.
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

- Committed fund balance amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e., School Board). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint.
- Assigned fund balance amounts the District intends to use for a specific purpose.
   Intent can be expressed by the School Board or by an official or body to which the School Board delegates the authority.
- Unassigned fund balance amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The School Board establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by School Board through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

# Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

# C. Financial Statement Amounts

#### **Property Taxes:**

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the fiscal year.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

GASB Statement No. 77: Tax Abatement Disclosures:

This standard became effective for the District in fiscal year 2018. This Statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements:

- 1. Brief descriptive information, such as the tax being abated, the authority under which tax abatements are provided, eligibility criteria, the mechanism by which taxes are abated, provisions for recapturing abated taxes, and the types of commitments made by tax abatement recipients.
- 2. The gross dollar amount of taxes abated during the period.
- 3. Commitments made by a government, other than to abate taxes, as part of a tax abatement agreement.

This District does not have any abatements at this time, therefore, the implementation had no effect on the District's financial statements.

Inventories and Prepaid Items:

The District records purchases of supplies as expenditures, utilizing the purchase method of accounting for inventory in accordance with the Resource Guide.

#### Capital Assets:

Purchased or constructed capital assets are reported at cost or estimated historical cost. Donated fixed assets are recorded at their estimated fair value at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

|   | <b>ESTIMATED</b> |
|---|------------------|
| ASSET CLASS                             | USEFUL LIVES     |
| Buildings                               | 15-30            |
| Improvements (including infrastructure) | 15-30            |
| Transportation equipment                | 5-10             |
| Furniture, fixtures and equipment       | 5-10             |

# Receivable and Payable Balances:

The District believes that sufficient detail of receivable and payable balances is provided in the financial statements to avoid the obscuring of significant components by aggregation. Therefore, no disclosure is provided which disaggregates those balances.

There are no significant receivables which are not scheduled for collection within one year of year end.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

# Interfund Activity:

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

#### Use of Estimates:

The preparation of financial statements in conformity with GAAP requires the use of management's estimates, that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

#### Data Control Codes:

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

# Budgetary Data:

The Board of Trustees adopts an annual budget consistent with generally accepted accounting principles for the General Fund, Debt Service Fund, and the National School Breakfast and Lunch Program Fund (which is included in the Special Revenue Funds). The District is required to present the adopted and final budgeted revenues and expenditures for each of these funds.

The following procedures are followed in establishing the budgetary data reflected in the budgetary comparison schedules.

- 1. Prior to August 20, the District prepares a budget for the next succeeding fiscal year beginning September 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days' public notice of the meeting must be given.
- 3. Prior to September 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meeting. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after the fiscal year end. During the fiscal year ended August 31, 2018, the District did not make any significant budget amendments that increased overall appropriations over the original budget.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

- 4. Each budget is monitored by the business manager at the revenue and expenditure function/object level. Budgeted amounts are amended by the Board. All budget appropriations lapse at year end.
- 5. Encumbrances for goods or purchased services are documented by the purchase order or contracts. Under Texas law, appropriations lapse at August 31, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. The District did not have any outstanding encumbrances as of August 31, 2018 that were to be provided for in the 2018-2019 budget.

#### Pensions:

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

# Other Post-Employment Benefits:

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

#### Subsequent Events:

Management has evaluated subsequent events through November 12, 2018, the date the financial statements were available to be issued.

#### NOTE 2 - DEPOSITS AND INVESTMENTS

#### A. Deposits and Investments

# Legal and Contractual Provisions Governing Deposits and Investments

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation ("FDIC") insurance.

At August 31, the bank amount of the District's deposits (cash, certificates of deposit, and interest-bearing savings accounts included in temporary investments) was \$258,151.

# NOTE 2 - DEPOSITS AND INVESTMENTS - CONTINUED

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposits. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

As of August 31, the District had the following investments:

| • | ,                         | 0               |                 |          |  |
|---|---------------------------|-----------------|-----------------|----------|--|
|   |                           |                 |                 | WEIGHTED |  |
|   |                           |                 |                 | AVERAGE  |  |
|   |                           | CARRYING        | MARKET          | MATURITY |  |
|   | NAME                      | AMOUNT          | VALUE           | (DAYS)   |  |
|   | Lone Star Investment Pool | \$<br>2 407 107 | \$<br>2 407 107 | 22       |  |

Local government investment pools operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Local government investment pools use amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in these pools is the same as the value of the shares in each pool.

Lone Star Investment Pool was organized in 1991 in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Pool is administered by First Public, formerly known as Texas Association of School Boards Financial Services. Lone Star investment Pool is governed by an 11-member board, all of whom are participants in the Pool. An independent, third-party investment consultant reports directly to the Board of Trustees. The independent consultant, RBC Dain Rauscher, Inc., Dallas, Texas, reviews the daily operations of the Pool, analyzes all investment transactions for compliance with the Investment Policy, monitors activities of the custodian bank, and compares the investment advisor's performance with benchmarks and a peer group of similarly managed funds. The Pool also employs an independent, third-party bank, The Bank of New York, headquartered in New York, New York, to perform custody and valuation services. The Lone Star Investment Pool is subject to annual review by an independent auditor consistent with the Public Funds Investment Act. Ernst & Young, 700 Lavaca Street, Suite 1400, Austin, Texas 78701, performs the annual audit.

# Policies Governing Deposits and Investments

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy does address the following risks:

Custodial Credit Risk - Deposits: This is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District was not exposed to custodial credit risk since its deposits at year-end were covered by depository insurance or by pledged collateral held by the District's agent bank in the District's name.

Custodial Credit Risk - Investments: This is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments are subject to custodial credit risk only if they are evidenced by securities that exist in physical or book entry form; thus, positions in external investment pools are not subject to custodial credit risk because they are not evidenced by securities that exist in physical or book entry form.

# NOTE 2 - DEPOSITS AND INVESTMENTS - CONTINUED

Other Credit Risk - There is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. To minimize credit risk, Lone Star Investment Pool only invests in investments authorized under the Public Funds Investment Act. As of August 31, Lone Star Investment Pool's investment credit quality rating was AAA (Standard & Poor's).

# NOTE 3 - DUE TO AND FROM OTHER FUNDS

Balance due to and due from other funds at August 31, 2018, consisted of the following:

| DUE TO FUND | DUE FROM FUND | AMOUNT | PURPOSE |
|-------------|---------------|--------|---------|
| None        |               |        |         |
|             |               |        |         |
|             |               |        |         |

# NOTE 4 - TRANSFERS

| TRANSFER TO FUND        | TRANSFER FROM FUND | AMOUNT        | PURPOSE          |
|-------------------------|--------------------|---------------|------------------|
| Capital Project Fund    | General Fund       | \$<br>301 518 | Construction     |
| Other Governmental Fund | General Fund       | 105           | Short-term loans |
|                         | TOTAL              | \$<br>301 618 |                  |

All amounts due are scheduled to be repaid within one year

# NOTE 5 - CAPITAL ASSETS

Capital asset activity for the period ended August 31, was as follows:

|                                       |    | BEGINNING   |     |           |    |           |     | ENDING      |
|---------------------------------------|----|-------------|-----|-----------|----|-----------|-----|-------------|
|                                       | _  | BALANCES    |     | INCREASES |    | DECREASES | _   | BALANCES    |
| Governmental Activities:              | -  |             | _   |           | -  |           |     | _           |
| Capital Assets Not Being Depreciated: |    |             |     |           |    |           |     |             |
| Construction in progress              | \$ | 302 251     | \$  | 302 087   | \$ | (604 338) | \$  | -           |
| Land                                  | _  | 221 081     | _   | -         |    | -         |     | 221 081     |
| TOTAL CAPITAL ASSETS NOT BEING        |    |             |     |           |    |           |     |             |
| DEPRECIATED                           | _  | 523 332     |     | 302 087   | _  | (604 338) | _   | 221 081     |
| Capital Assets Being Depreciated:     |    |             |     |           |    |           |     |             |

| ACTIVITIES               | \$<br>3 537 502      | \$ | -         | \$ | (535 417) | \$ | 3 002 085         | \$ | 520 000                           |

Debt Service Requirements:

Debt service requirements on long-term debt at August 31 are as follows:

| YEAR ENDING | GOVERI        | GOVERNMENTAL ACTIVITIES |              |  |  |  |  |  |
|-------------|---------------|-------------------------|--------------|--|--|--|--|--|
| AUGUST 31,  | PRINCIPAL     | INTEREST                | TOTAL        |  |  |  |  |  |
| 2019        | 520 000       | 74 350                  | 594 350      |  |  |  |  |  |
| 2020        | 535 000       | 61 125                  | 596 125      |  |  |  |  |  |
| 2021        | 565 000       | 44 625                  | 609 625      |  |  |  |  |  |
| 2022        | 590 000       | 27 300                  | 617 300      |  |  |  |  |  |
| 2023        | 615 000       | 9 225                   | 624 225      |  |  |  |  |  |
| TOTALS      | \$ 2825000 \$ | 216 625                 | \$ 3 041 625 |  |  |  |  |  |

The refunding bonds payable have an interest rate from 2.0% to 3.0%.

# NOTE 7 - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During the fiscal year 2018, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlement exceeding insurance coverage for each of the past three fiscal years.

# NOTE 8 - PENSION PLAN

# A. Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

#### B. Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <a href="https://www.trs.texas.gov/TRS%20Documents/cafr\_2016.pdf">https://www.trs.texas.gov/TRS%20Documents/cafr\_2016.pdf</a>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

#### C. Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description in (A) above.

#### D. Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

# NOTE 8 - PENSION PLAN - CONTINUED

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 83<sup>rd</sup> Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2014 and 2015. The 84<sup>th</sup> Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2016 and 2017.

|  | CONTRIBUTION RATE |    |         |  |
|--|-------------------|----|---------|--|
|  | 2017              |    | 2018    |  |
| Member                                   | 7.2%              |    | 7.2%    |  |
| Non-Employer Contributing Entity (State) | 6.8%              |    | 6.8%    |  |
| Employers                                | 6.8%              |    | 6.8%    |  |
| Employer Contributions - 2018            | ·                 | \$ | 103 702 |  |
| Member Contributions - 2018              | ;                 | \$ | 323 831 |  |
| NECE On-behalf Contributions - 2017      | ;                 | \$ | 223 208 |  |

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district or charter school does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

# NOTE 8 - PENSION PLAN - CONTINUED

# E. Actuarial Assumptions

The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date August 31, 2017 Actuarial Cost Method Individual Entry Age Normal Asset Valuation Method Market Value Single Discount Rate 8.00% Long-term Expected Investment Rate of Return 8.00% Inflation 2.50% Salary Increases 3.50% to 9.50% including inflation Benefit Changes During the Year None Ad Hoc Post-Employment Benefit Changes None

The actuarial methods and assumptions are based primarily on a study of actual experience for the four year period ending August 31, 2014 and adopted on September 24, 2015.

# NOTE 8 - PENSION PLAN - CONTINUED

#### F. Discount Rate

The discount rate used to measure the total pension liability was 8.0%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the longterm expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 8%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2017 are summarized below:

EXPECTED

|                      |                               |             |           | EXPECTED     |

<sup>\*</sup> Target allocations are based on the FY2014 policy model. Infrastructure was moved from Real Assets to Energy and Natural Resources in FY2017, but the reallocation does not affect the long-term expected geometric real rate of return or expected contribution to long-term portfolio returns.

<sup>\*\*</sup> The Expected Contribution to Long-Term Portfolio Returns incorporates the volatility drag resulting from the conversion between arithmetic and geometric mean returns.

# NOTE 8 - PENSION PLAN - CONTINUED

G. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (8%) in measuring the Net Pension Liability.

|                              | 1% DECREASE     |    | DISCOUNT  | 1% INCREASE   |
|------------------------------|-----------------|----|-----------|---------------|
|                              | IN DISCOUNT     |    | RATE      | IN DISCOUNT   |
|                              | RATE (7.0%)     |    | (8.0%)    | RATE (9.0%)   |
| District proportionate share |                 | _  |           | <br>_         |
| of the net pension liability | \$<br>1 726 614 | \$ | 1 024 209 | \$<br>439 343 |

H. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2018, the District reported a liability of \$1,024,209 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the |                 |
|---------------------------------------|-----------------|
| collective net pension liability      | \$<br>1 024 209 |
| State's proportionate share that is   |                 |
| associated with the District          | 2 182 201       |
| TOTAL                                 | \$<br>3 206 410 |

The net pension liability was measured as of August 31, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2016 thru August 31, 2017.

At August 31, 2017 the District's proportion of the collective net pension liability was 0.0032% which was an increase (decrease) of 0.00% from its proportion measured as of August 31, 2016.

**Changes Since the Prior Actuarial Valuation** - There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2018, the District recognized pension expense of \$166,450 and revenue of \$166,450 for support provided by the State.

# NOTE 8 - PENSION PLAN - CONTINUED

At August 31, 2018, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources: *Current year amounts can be found on the Schedule of Future Deferrals, columns H-N.* 

|  |     | DEFERRED    |    | DEFERRED   |
|--|-----|-------------|----|------------|
|  |     | OUTFLOWS OF |    | INFLOWS OF |
|  |     | RESOURCES   |    | RESOURCES  |
| Differences between expected and actual          | _   |             |    |            |
| economic experience                              | \$  | 14 985      | \$ | 55 234     |
| Changes in actuarial assumptions                 |     | 46 654      |    | 26 709     |
| Difference between projected and actual          |     |             |    |            |
| investment earnings                              |     | 157 511     |    | 232 154    |

| 2022       | \$<br>(12575) |
| 2023       | \$<br>(7722)  |
| Thereafter | \$<br>(2757)  |

#### NOTE 9 - DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS

# A. Plan Description

The [employer] participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

# B. OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR; by writing to TRS at 1000 Red River Street, Austin, Texas 78701-2698; or by calling 512.542.6592.

#### NOTE 9 - DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS - CONTINUED

#### C. Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible retirees and their dependents not enrolled in Medicare may pay premiums to participate in one of two optional insurance plans with more comprehensive benefits (TRS-Care 2 and TRS-Care 3). Eligible retirees and dependents enrolled in Medicare may elect to participate in one of the two Medicare health plans for an additional fee. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for the average retiree with Medicare Parts A & B coverage, with 20 to 29 years of service for the basic plan and the two optional plans.

| TRS-Care Plan Premium Rates                     |    |                   |    |                      |    |               |

<sup>\*</sup> or surviving spouse

### D. Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.0% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

#### NOTE 9 - DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS - CONTINUED

#### **Contribution Rates**

|   | <br>2017 | 2018   |
|---|----------|--------|
| Active Employee                               | 0.65%    | 0.65%  |
| Non-Employer Contributing Entity (State)      | 1.00%    | 1.25%  |
| Employers                                     | 0.55%    | 0.75%  |
| Federal/private Funding remitted by Employers | 1.00%    | 1.25%  |
| Employer Contributions - 2018                 | \$       | 33 712 |
| Member Contributions - 2018                   | \$       | 27 327 |
| NECE On-behalf Contributions - 2017           | \$       | 37 586 |

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (*regardless of whether or not they participate in the TRS Care OPEB program*). When employers hire a TRS retiree, they are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$15.6 million in fiscal year 2017 and \$182.6 million in fiscal year 2018.

#### E. Actuarial Assumptions

Valuation Date

The total OPEB liability in the August 31, 2017 actuarial valuation was determined using the following actuarial assumptions:

August 31, 2017

#### **Actuarial Methods and Assumptions:**

| raraution buto           | 114S451 01, 2011  |
|--------------------------|---|
| Methods and Assumptions: |   |
| Actuarial Cost Method    | Individual Entry Age Normal   |
| Inflation                | 2.50%   |
| Single Discount Rate     | 3.42% as of August 31, 2017   |
| Demographic Assumptions  | Based on the experience study performed for the Teachers Retirement System of Texas of the period ending August 31, 2014.   |
| Mortality Assumption     | The active mortality rates were based on 90% of the RP-2014 Employee Mortality Tables for males and females, with full generational mortality using Scale BB. The post-retirement mortality rates for healthy lives were based on the 2015 TRS of Texas Healthy Pensioner Mortality Tables, with full generational projection using Scale BB. |
| Healthcare Trend Rates   | Initial medical trend rates of 7.00% for non-Medicare retirees and 10.00% for Medicare retirees. Initial prescription drug trend rate of 12.00% for all retirees. Initial trend rates decrease to an ultimate trend rate of 4.50% over a period of 10 years.  |
| Election Rates           | Normal Retirement: 70% participation prior to age 65 and 75% participation after age  |

Aging Factors

Based on plan specific experience.

Expenses

Third party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2017 TRS pension actuarial valuation:

| Rates of Mortality            | General Inflation       |
|-------------------------------|-------------------------|
| Rates of Retirement           | Wage Inflation          |
| Rates of Termination          | Expected Payroll Growth |
| Rates of Disability Incidence |                         |

**Other Information:** There was a significant plan change adopted in fiscal year ending August 31, 2017. Effective January 1, 2018, only one health plan option will be offered and all retirees will be required to contribute monthly premiums for coverage. Assumption changes made for the August 31, 2017 valuation include a change to the assumption regarding the phase-out of the Medicare Part D subsidies and a change to the discount rate from 2.98% as of August 31, 2016 to 3.42% as of August 31, 2017.

#### NOTE 9 - DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS - CONTINUED

#### F. Discount Rate

A single discount rate of 3.42% was used to measure the total OPEB liability. There was a change of 0.44 % in the discount rate since the previous year. Because the plan is essentially a "pay-as-you-go" plan, the single discount rate is equal to the prevailing municipal bond rate. The projection of cash flows used to determine the discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to *not be able to* make all future benefit payments of current plan members. Therefore, the municipal bond rate was applied to all periods of projected benefit payments to determine the total OPEB liability. The source of the municipal bond rate was Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-year Municipal GO AA Index" as of August 31, 2017.

| Resources Commodities         | - %                   | 1.2%  | - %  |
| Risk Parity                   |                       |   |  |
| Risk Parity                   | 5%                    | 6.7%  | 0.3%   |
| Inflation Expectation         |                       |   | 2.2%   |
| Alpha                         |                       |   | 1.0%   |
| TOTAL                         | 100%                  |   | 8.7%   |

<sup>\*</sup>Target allocations are based on the FY2014 policy model. Infrastructure was moved from Real Assets to Energy and Natural Resources in FY2017, but the reallocation does not affect the long-term expected geometric real rate of return or expected contribution to long-term portfolio returns.

#### G. Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.42%) in measuring the Net OPEB Liability.

|                                       |    | 1% Decrease  |    | Current         |    | 1% Increase  |
|---------------------------------------|----|--------------|----|-----------------|----|--------------|
|                                       |    | in Discount  |    | Single Discount |    | in Discount  |
|                                       |    | Rate (2.42%) |    | Rate (3.42%)    |    | Rate (4.42%) |
| District's proportionate share of the | _  |              | -  |                 | -  |              |
| Net OPEB Liability                    | \$ | 2 432 754    | \$ | 2 061 222       | \$ | 1 762 594    |

<sup>\*\*</sup>The Expected Contribution to Long-Term Portfolio Returns incorporates the volatility drag resulting from the conversion between arithmetic and geometric mean returns.

#### NOTE 9 - DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS - CONTINUED

#### H. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At August 31, 2018, the District reported a liability of \$2,061,222 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provide to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

| District's proportionate share of the collective    |                 |
|---|-----------------|
| net OPEB liability                                  | \$<br>2 061 222 |
| State's proportionate share that is associated with |                 |
| District  | 3 143 813       |
| TOTAL   | \$<br>5 205 035 |

The Net OPEB Liability was measured as of August 31, 2017 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The employer's proportion of the Net OPEB Liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2016 thru August 31, 2017.

At August 31, 2017, the employer's proportion of the collective Net OPEB Liability was 0.0047% which was the same proportion measured as of August 31, 2016.

**Changes Since the Prior Actuarial Valuation** - The following were changes to the actuarial assumptions or other inputs that affected measurement of the Total OPEB liability since the prior measurement period:

The following assumptions and other inputs which are specific to TRS-Care were updated from the prior year's report:

- 1. Significant plan changes were adopted during fiscal year ending August 31, 2017. Effective January 1, 2018, only one health plan option will exist (instead of three), and all retirees will be required to contribute monthly premiums for coverage. The health plan changes triggered changes to several of the assumptions, including participation rates, retirement rates, and spousal participation rates.
- 2. The August 31, 2016 valuation had assumed that the savings related to the Medicare Part D reimbursements would phase out by 2022. This assumption was removed for the August 31, 2017 valuation. Although there is uncertainty regarding these federal subsidies, the new assumption better reflects the current substantive plan. This change was unrelated to the plan amendment, and its impact was included as an assumption change in the reconciliation of the total OPEB liability. This change significantly lowered the OPEB liability.
- 3. The discount rate changed from 2.98 percent as of August 31, 2016 to 3.42 percent as of August 1, 2017. This change lowered the total OPEB liability.

There were no changes of benefit terms that affected measurement of the Total OPEB liability during the measurement period.

#### NOTE 9 - DEFINED OTHER POST-EMPLOYMENT BENEFIT PLANS - CONTINUED

For the year ended August 31, 2018, the District recognized OPEB expense of \$1,052,003 and revenue of \$1,052,003 for support provided by the State.

At August 31, 2018, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following resources:

|   |    | Deferred     |    | Deferred          |
|---|----|--------------|----|-------------------|
|   |    | Outflows of  |    | Inflows of        |
|   |    | Resources    |    | Resources         |
| Differences between expected and actual   | •  |              |    |                   |
| economic experience   | \$ | -            | \$ | 43 030            |
| Changes in actuarial assumptions  |    | -            |    | 819 183           |
| Difference between projected and actual   |    |              |    |                   |
| investment earnings   |    | 313          |    | -                 |
| Changes in proportion and difference between  |    |              |    |                   |
| the employer's contributions and the proportionate  |    |              |    |                   |

| 2022       | \$ | (113727)     |
| 2023       | \$ | (113 805)    |
| Thereafter | \$ | $(293\ 176)$ |

#### NOTE 10 - COMMITMENTS AND CONTINGENCIES

#### Contingencies:

The District participates in grant programs which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying basic financial statements for such contingencies.

#### Litigation:

No reportable litigation was pending against the District at August 31.

#### NOTE 10 - COMMITMENTS AND CONTINGENCIES - CONTINUED

Workers Compensation Fund:

The District has joined together with other area districts to form a self-insurance workers' compensation risk pool. Claims administration and processing for the Pool is provided by Claim Administrative Services, Inc. The agreement for the formation of the Pool provides that the Pool will be self sustaining through member premiums and will reinsure through commercial insurance companies for claims in excess of \$225,000 for each insured event, with unlimited aggregate. The Pool contracts with Safety National Casualty Corporation for reinsurance.

The District maintains a bank account that is administered by Claims Administrative Services, Inc. for the payment of claims. The balance of the account at August 31 was \$33,937. This is less than the claims unpaid at year end.

#### NOTE 11 - PRIOR PERIOD ADJUSTMENT

With the implementation of GASB 75, the District recognized a prior period adjustment of \$3,638,983 for previously unrecognized Other Post-Employment Benefits (OPEB) in the government-wide statements.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees Alto Independent School District Alto, Texas

#### Members of the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Alto Independent School District as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the basic financial statements and have issued our report thereon dated November 12, 2018.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Alto Independent School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Alto Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Alto Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We noted an instance described in the accompanying schedule of findings and questioned costs as items 2018-01 we consider to be a significant deficiency.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Alto Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### ALTO INDEPENDENT SCHOOL DISTRICT SCHEDULE OF FINDINGS, QUESTIONED COSTS, AND CORRECTIVE ACTION For the Year Ended August 31, 2018

#### A. Summary of Auditor's Results

| 4 | ъ.     |      | <b>~</b> |     |      |
|---|--------|------|----------|-----|------|
|   | Financ | ופוי | Stat     | em. | ente |
|   |        |      |          |     |      |

| Type of auditor's report issued:   | <u>Unmodified</u>   |
|--|---------------------|
| Internal control over financial reporting:   |                     |
| Material weakness(es) identified?  | YesX_ No            |
| Significant deficiencies identified that are not considered to be material weaknesses? | _X_YesNone reported |
| Noncompliance material to financial statements noted?                                  | Yes <u>X</u> No     |

#### 2. Federal Awards

A single audit is not required since total federal expenditures are less than \$750,000.

#### B. Financial Statement Findings

#### 2018-01 - Segregation of Duties

Condition: Due to the limited number of personnel, a total segregation of certain

accounting functions is not possible.

Criteria: The District should have procedures in place that would ensure proper

segregation of certain accounting functions, especially, but not limited to the

functions of recording, authorizing and custody.

Effect: As a result, the design or operation of procedures might not allow

management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a

timely basis.

Cause: The Board of Trustees has determined it would not be economically feasible

to employ additional staff.

Recommendation: We recommend that the Board of Trustees continue to monitor the internal

accounting control procedures in use to assure that compensating controls are being utilized to provide assurance that assets are safeguarded and transactions are proper and recorded in a timely manner. These actions would mitigate, but not eliminate the risk of misstatement or

misappropriation.

Timeframe: Ongoing

## ALTO INDEPENDENT SCHOOL DISTRICT SCHEDULE OF FINDINGS, QUESTIONED COSTS, AND CORRECTIVE ACTION - CONTINUED For the Year Ended August 31, 2018

#### **Corrective Action Plan**

2018-01 - Segregation of Duties

District management will continue to monitor the internal accounting control procedures in use to assure that compensating controls are being utilized to provide assurance that assets are safeguarded and transactions are proper and recorded in a timely manner.

#### ALTO INDEPENDENT SCHOOL DISTRICT SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS For the Year Ended August 31, 2018

Findings/Recommendation

Current Status

Management's Explanation
if Not Implemented

2017-01 - Segregation of Duties

The Board of Trustees has determined that it would not be economically feasible to employ additional staff. As a result, the Board of Trustees will continue to monitor the internal accounting control procedures in use to assure that compensating controls are being utilized to provide assurance that assets are safeguarded and transactions are proper and recorded in a timely manner. These actions by the Board would mitigate, but not eliminate the risk for the District.
